SUMMARY

Frontend Developer with a strong background in designing and optimising modern web applications. Proven success in enhancing user experience and collaborating with cross-functional teams. Specialising in creating responsive, scalable, and user-friendly interfaces using technologies like React.js, JavaScript, HTML5, and CSS3. Proficient in integrating APIs and ensuring seamless performance across devices. A results-driven problem solver with a passion for clean design and efficient code.

SKILLS

Front-End:

React.js | Redux | TailwindCSS | Bootstrap | SASS | JavaScript | CSS | HTML

Back-End:

Node.js | Express | MongoDB

Tools:

Git | GitHub | Webpack | Heroku | Render | Vercel | Netlify

EXPERIENCE

Frontend Developer

Algoriza, Remote

May 2024 - October 2024

- Developed and maintained responsive user interfaces for web applications using HTML5, CSS3, and JavaScript to enhance user experience and accessibility.
- Collaborated with the design and backend teams to integrate APIs and ensure seamless data flow between the frontend and backend services.
- Assisted in debugging and fixing UI/UX issues, ensuring that the final product was consistent with design and technical specifications.

Freelance Frontend Developer

Self-employed, Remote

April 2024 - Present

- Designed and developed responsive web applications using React and TailwindCSS, ensuring optimal performance and user experience.
- Collaborated with clients to translate their requirements into functional designs, enhancing their online presence and achieving high customer satisfaction.

PROJECTS

React Chat

[Live Link](#)

- A real-time messaging app that provides seamless communication and multimedia sharing, all built on a secure and scalable architecture.
- **Tech Stack:** Built using React.js for the frontend, Firebase for authentication and database management, ensuring a secure and scalable architecture.

ADS Master

[Live Link](#)

- A modern digital agency website designed to highlight marketing services with a clean and professional layout. The site offers smooth navigation, responsiveness, and a visually appealing experience to engage potential clients.
- **Tech Stack:** Built with React.js and TailwindCSS, focusing on performance and seamless user experience across all devices.

Sellha

[Live Link](#)

- A dynamic platform enabling merchants to easily create their own online store, manage products, orders, and customize the look with various themes. The platform includes a comprehensive dashboard for full control over the store's operations.
- **Tech Stack:** Built using React.js, TailwindCSS, ReactChart, and Swiper, ensuring responsiveness, seamless interaction, and ease of management across devices.

EDUCATION

Bachelor's degree in Civil Engineering

Alexandria University, Egypt - 2021 (B+)

Relevant Coursework:

Frontend Development — Online, 2023

INVOLVEMENT

Mentor

Microverse

December 2023 - April 2024

- Mentored incoming students, providing technical support and enhancing their coding skills.
- Organised peer collaboration sessions to promote knowledge sharing within the community.
